

AROCKIADASS S

Data Scientist | AI, ML & Predictive Modeling

Python, SQL, Tableau, ML Deployment and BI Dashboards

Bengaluru, India • arockiadassdev@gmail.com • +91 9585930853 • linkedin.com/in/arockiadass-s • github.com/arockiadassdev

PROFESSIONAL SUMMARY

Data Scientist with 3.5 years of engineering experience and a completed transition into applied Machine Learning, AI, and Data Analytics. Skilled in the full ML lifecycle, including data pipeline design, statistical modeling, model development (classification, regression, NLP), deployment, and monitoring, using Python, SQL, and Scikit-learn, TensorFlow. Experienced in building executive-facing BI dashboards (Tableau, Power BI) and translating model outputs into business decisions. Delivered measurable impact: reduced healthcare claim errors by 20 percent, built ML models averaging 88 percent-plus accuracy, and identified INR 8,00,000+ (Rs. 8 Lakh+) in revenue leakage through data storytelling. DataMites Certified Data Scientist (CDS), targeting Data Scientist, Machine Learning Engineer, and Data Analyst roles at product and enterprise organizations.

CORE TECHNICAL SKILLS

Machine Learning & Statistical Modeling: Predictive Modeling, Statistical Modeling, Statistical Analysis, Hypothesis Testing (t-tests, chi-square), A/B Testing, Regression, Classification, Clustering, EDA, Feature Engineering, Hyperparameter Tuning (GridSearchCV, Optuna), Cross-Validation, Model Evaluation & Monitoring, Time Series Analysis, SHAP, Model Explainability, Client-Facing Analytics Delivery

Programming & Data Engineering: Python (Pandas, NumPy, Scikit-learn), SQL (MySQL, PostgreSQL), ETL Workflows, Data Pipeline Development, Data Modeling, Query Optimisation, Data Cleaning & Preprocessing, BigQuery basics

AI, Deep Learning, NLP: TensorFlow, Deep Learning Fundamentals, NLP (NLTK, spaCy, Text Classification, Sentiment Analysis), LLM & Generative AI Basics

BI & Visualization: Tableau, Power BI, Matplotlib, Seaborn, Streamlit, Jupyter Notebook, Excel, Google Sheets

MLOps & Cloud: MLflow, Docker, AWS (S3, EC2), GCP, Google Colab, GitHub Actions (CI/CD), REST API Integration, Git, GitHub

Business & Client Delivery: KPI Reporting, Data Storytelling, Business Intelligence, Stakeholder Communication, Requirement Gathering, Agile, Scrum

AI Tools & Agents: Claude, ChatGPT, Gemini, CrewAI, Amazon Q, Google Antigravity

Prior Engineering Stack: JavaScript (ES6), ReactJS, Redux, RESTful APIs, JSON, HTML5, CSS3, Jest

PROFESSIONAL EXPERIENCE

Data Scientist | Rubixe AI Solutions, Bengaluru, India

Jan 2026 - Present

Tools/Tech: Python, Scikit-learn, TensorFlow, Pandas, NumPy, SQL, Tableau, Power BI, AWS S3, EC2, MLflow, Git, Jira

- Delivered 3+ end-to-end predictive modeling solutions (classification and regression) for client-facing use cases using Scikit-learn and TensorFlow, achieving 88%+ average model accuracy and presenting results directly to stakeholders.
- Engineered reusable data cleaning, preprocessing, and feature engineering pipelines processing 100K+ records, cutting data preparation time by ~40% per sprint and improving pipeline reproducibility across the team.
- Applied statistical hypothesis testing (t-tests, chi-square) and complex SQL analysis to validate model integrity, surfacing 3+ actionable business insights per sprint for stakeholder decision-making.
- Implemented model evaluation and monitoring (cross-validation, confusion matrix, AUC-ROC) to track production performance and flag data drift, supporting model reliability in a client-delivery environment.
- Version-controlled datasets and model artefacts using AWS S3 and MLflow, enabling reproducible experiments and streamlined cross-functional collaboration.
- Built executive-level Tableau and Power BI dashboards adopted by 5+ stakeholders for real-time KPI tracking, translating model outputs into business-ready insights.
- Delivered 100% sprint completion across 4 Agile/Scrum sprints using Git and Jira, managing the full ML development lifecycle end-to-end.

Independent Web Developer & Accessibility Work | Freelance, Remote

Apr 2024 - Dec 2025

Tools/Tech: ReactJS, JavaScript (ES6), HTML5, CSS3, WCAG 2.1, NVDA, JAWS, Git

- Designed and developed 6+ client and freelance websites using ReactJS, JavaScript (ES6), and HTML5, CSS3, delivering responsive, production-ready builds within freelance timelines.
- Conducted WCAG 2.1 accessibility audits and manual screen reader testing (NVDA, JAWS) across 6+ client sites, identifying and remediating gaps in navigation, forms, and ARIA labeling.

- Improved semantic HTML structure and keyboard navigation across client projects, aligning deliverables with WCAG 2.1 AA compliance targets.
- Collaborated directly with freelance clients to scope requirements and deliver accessible, maintainable codebases end-to-end.

Software Engineer (Data-Focused) | Evolent Health, Pune, India

Aug 2023 - Mar 2024

Tools/Tech: ReactJS, Redux, RTK Query, Material UI, RESTful APIs, Jest, SQL, JSON

- Processed and managed 500K+ healthcare claim records using SQL and EDA to identify data anomalies, reducing claim processing errors by approximately 20 percent and cutting manual reporting time by 6 hours per week via data-driven dashboards for clinical operations teams.
- Integrated RESTful APIs and JSON data pipelines to surface backend healthcare data as structured ETL workflows; maintained 90 percent-plus unit test coverage ensuring data integrity across all data-handling components.

Software Developer | Azure SoftTech Solutions, Chennai, India

Jan 2021 - Jul 2023

Tools/Tech: ReactJS, JavaScript, Bootstrap, GitHub, REST APIs, AJAX, JSON

- Built and shipped a full-stack Food Delivery Application processing real-time data for 1,000+ SKUs via REST APIs, optimising data-rendering pipelines to reduce page load time by 35 percent.
- Consumed and transformed RESTful web service data using AJAX and JSON, directly applicable to API-based data extraction and ETL workflows, delivering 4+ production releases on schedule in Agile sprints.

DATA SCIENCE PROJECTS

Customer Churn Prediction Model

Tools/Tech: Python, Pandas, Scikit-learn, Matplotlib, Seaborn, SMOTE, Streamlit, REST API

- Built a Random Forest classifier on a telecom dataset of 70K+ rows, achieving 89 percent accuracy and 0.87 F1-score using advanced feature engineering and hyperparameter tuning.
- Performed end-to-end EDA and data cleaning using Pandas and Matplotlib, uncovering 5 key churn drivers including contract type, tenure, and monthly charges.
- Applied SMOTE to address class imbalance and used cross-validation for model evaluation, reducing overfitting and improving model generalisation by 12 percent.
- Deployed the model as an interactive Streamlit web app visualising real-time churn risk scores by customer segment, reducing manual segment analysis from approximately 3 hours to under 5 minutes.

Sales Performance Analytics Dashboard

Tools/Tech: Python, SQL, PostgreSQL, Tableau, Excel, Cohort Analysis, Seasonality Modeling

- Developed an end-to-end Tableau dashboard connected to a PostgreSQL backend, analysing 2 years of e-commerce sales data across 10 product categories.
- Identified INR 8,00,000+ (Rs. 8 Lakh+) in potential revenue leakage through cohort segmentation, trend analysis, and seasonality modelling, presented as data-driven business insights to stakeholders.
- Automated the data refresh and preprocessing pipeline using Python and SQL, reducing manual update effort from 3 hours to under 10 minutes per week (94 percent time saving).
- Designed a KPI reporting framework aligned with business goals, enabling self-serve analytics for non-technical stakeholders.

CERTIFICATIONS

- Certified Data Scientist (CDS), DataMites, 2026
- Certified Data Scientist (CDS), IABAC, 2026
- Data Science Foundation (DSF), IABAC, 2026
- Certified Data Scientist, NASSCOM, 2026
- SQL, Simplilearn, 2026
- AWS Cloud Practitioner Essentials, AWS Skill Builder, 2026

EDUCATION

M.Sc. Computer Science | Don Bosco College, Yelagiri Hills | 2020 - 2022

Relevant Coursework: Machine Learning, Statistical Methods, Database Systems, Data Structures, Algorithms, Computer Networks

LANGUAGES

English (Professional Proficiency) • Tamil (Native)
